

REVERSE MORTGAGE MYTHS: CLEARING UP COMMON MISCONCEPTIONS

At 1st Choice Mortgage, we are committed to making sure you receive honest and accurate information about reverse mortgages, so you can make an educated decision that is best for you. Here are some of the most common misconceptions about Home Equity Conversion Mortgages (HECMs)—also known as reverse mortgages—and the truth behind these myths.

#1: “A REVERSE MORTGAGE REQUIRES GIVING UP OWNERSHIP OF YOUR HOME.”

False. As the borrower, your name remains on the title and the home is still yours—just as it would be with any mortgage. You are required to continue paying real estate taxes, homeowner’s insurance, and providing basic maintenance to your home. Once you no longer live in the home as your primary residence, the loan balance, including interest and fees must be repaid* This is usually done by the homeowner or their estate selling the home.

#2: “A REVERSE MORTGAGE SHOULD ONLY BE USED AS A LAST RESORT.”

False. With newer loan options that reduce up-front costs, reverse mortgages have become more versatile in recent years. Many homeowners age 62 and older are now using a reverse mortgage strategically as part of a sound financial plan. For example, a reverse mortgage line of credit can serve as a cash reserve that you can tap as needed. (And unlike a traditional Home Equity Line of Credit, the unused reverse mortgage credit line actually grows over time.) Or, monthly advances can help you supplement other retirement income, so you can avoid withdrawing savings or liquidating invested assets. In any case, no monthly mortgage payments are required,* which can improve your cash flow and help you live more comfortably. A Reverse Mortgage Specialist at 1st Choice Mortgage will be pleased to work with you and your financial advisor to develop a solution that’s right for you.

#3: “THERE ARE RESTRICTIONS ON HOW I CAN USE THE MONEY FROM A REVERSE MORTGAGE.”

False. How you use your reverse mortgage proceeds is up to you. Among the most common uses are paying off an existing mortgage or other debt in order to eliminate monthly debt payments; creating a cash reserve; supplementing monthly income; paying for home improvements; or covering medical bills or long-term care expenses.

REVERSE MORTGAGE MYTHS: CLEARING UP COMMON

#4: "I COULD WIND UP OWING MORE THAN MY HOUSE IS WORTH WITH A REVERSE MORTGAGE, AND LEAVE MY HEIRS WITH DEBT."

False. A HECM reverse mortgage is insured by the Federal Housing Administration (FHA). This insurance feature guarantees that you will never owe more than the value of your home when the loan becomes due. No debt will be left to your heirs. And if the loan balance is less than the market value of the home, the additional equity is retained by the homeowner/heirs (if the home is sold)

#5: "REVERSE MORTGAGES ARE TOO COMPLICATED."

Not So. With most financial products, there are a number of factors to consider before you can choose what is best for you. With 1st Choice Mortgage, you can rely on your Reverse Mortgage Specialist to be a trusted resource for clear information and responsible guidance. In addition, before you apply for a government-insured HECM, you are required to receive reverse mortgage counseling from a independent third-party counselor who is approved by the U.S. Department of Housing and Urban Development (HUD). These independent counselors are not affiliated with 1st Choice Mortgage, and their only job is to ensure you fully understand every aspect of your reverse mortgage.
